

Join the Revolution: Organize a State Chapter Of Black Women for Obama!

Our Goal

Our goal is to organize active chapters of Black Women for Obama in every state in the nation, and we're looking for women just like you to get involved! We will give you everything you need to organize a movement in your state, and to plan and execute our strategy for:

- Informing others about why Senator Obama is the best choice to be our next President
- Conducting voter registration events
- Planning local fundraisers
- Getting media coverage for your events
- ...and much more!

Our Strategy

Everyday, all over America, women organize parties to sell everything from cosmetics to kitchen utensils – this very viral form of sales and marketing works because it relies on word of mouth and highly motivated people who are willing to get the word out!

We think it's time we use this effective form of communication to make others aware of the candidate who is spreading a unique message of hope and a unified future for this nation – Senator Barack Obama, the next President of the United States!

To find out if your state has a chapter, or for more information on organizing the first chapter in your state, write us at StateChapters@blackwomenforobama.org, or call 678-768-8527.
